SAMUEL MAZZUCA

Reporting Analyst | Recurring Reports · Dashboards · Data Validation · SQL · Excel
San Diego, CA | sammazzuca15@gmail.com | (805) 551-1356 | linkedin.com/in/sammazzuca

SUMMARY

Business Analytics graduate with hands-on reporting and data accuracy experience. Produced daily operational reports for three years, worked directly with a business owner on reports and spreadsheets, and reconciled cost data across 15+ vendors to find and correct variances in 50+ records. Built an interactive Power BI dashboard on a multi-table data model, practices SQL daily, and has NetSuite and SAP coursework. Able to explain findings in plain language.

SKILLS

Reporting & Dashboards: Recurring and ad hoc reports, Power BI (multi-table model, slicers), Excel (pivot tables, XLOOKUP/VLOOKUP, SUMIFS/COUNTIFS, conditional formatting), PowerPoint (extensive coursework use)

Variance & Data Validation: Cost variance analysis, reconciliation across source systems, discrepancy investigation, data migration between systems

SQL & ERP: SQL (joins, grouping, filtering; coursework and daily MySQL practice), NetSuite and SAP (hands-on coursework), R

Systems: Cin7, Shopify, HubSpot CRM (daily use); Claude and Gemini with output verification

PROFESSIONAL EXPERIENCE

Rhino Adventure Gear — San Marcos, CA
E-Commerce Associate — *July 2025 – June 2026*

- Reconciled cost data across 15+ vendors each week, investigating variances against source records and correcting pricing errors in 50+ records.
- Worked directly with the owner on reports and spreadsheets, learning what they needed and turning it into accurate outputs, and maintained 3,500 active records in Excel.
- Validated 500+ product datasets moving between Excel, Cin7, and Shopify, catching missing, duplicated, or mismatched records.
- Tracked order status and long lead times and flagged issues to management early, following up until resolved.

Chick-fil-A — San Marcos, CA
Team Member — *October 2024 – September 2025*

- Coordinated with a 15–20 member team to meet deadlines in high-volume periods.

Gold's Gym — Thousand Oaks, CA
Front Desk Associate — *October 2021 – September 2024*

- Produced daily operational reports for facility management for three years and used HubSpot CRM daily to keep thousands of member records accurate.

PROJECT

Demographic & Health Indicators Analysis

- Analyzed a 250,000-record health dataset in R with statistical tests and built an interactive Power BI dashboard so non-technical stakeholders could explore the findings.

EDUCATION

California State University, San Marcos — San Marcos, CA
Bachelor of Science, Business Administration – Business Analytics Emphasis — *June 2026*

- Coursework: statistics, SQL, R, Excel, supply chain, PowerPoint; hands-on NetSuite and SAP.
